

HABC Awareness of Modern slavery

Modern slavery is a global problem where victims are exploited and mistreated for personal gain.

The rights of the victims are actively ignored, and in many cases, the vulnerabilities of the victims are used to continue the abuse and exploitation.

The offenders themselves can range from individuals to seemingly ordinary private enterprises or small businesses, to outfits of organised crime that can operate on a larger scale.

Just few images from our online interactive program

Modern slavery – spot it and stop it...because knowing is half the battle.
